

H C L L O O O O O O O O O O ! \* \* \* \*

\* My name is Susanna, and illustrated the book in your hands, Ada and the Galaxies.

I used paint to make the illustrations, but also... photos taken by the Hubble Space Telescope!

One last thing before I send you this letter, did you know you and I are made of the same things that were stars? Oooooh you are a star who shines VERY bright.

HAPPY Reading!!!!

- susanna chapman

P.S. I also sneaked some pictures of starry things into the book that are NOT in

the sky. Can you find them?
